

eCST – Student Search

The journey in eCST begins by clicking a simple search button. Search retrieves an individual student or group of students for case study.

The search can be performed based on one or combination of different fields.

- ✚ Last Name – The search will display a list of students with the matching Last Name.
- ✚ Student ID – The search will open the student’s profile page.
- ✚ Grade Level search – The search will display a list of students in the selected grade level.
- ✚ School Level search – The search will display the list of students in the selected school

The more fields entered the faster the search will be completed.
